

Traffic Chaos in Hollingworth!!

Desperately Need a Bypass?

Think Again!

A bypass will bring:

- * **NOISE POLLUTION** from the constant buzz of fast traffic
- * **AIR POLLUTION** throughout the Glossop basin
- * **BUILDING** over the green areas of our valley
 - + *Industrial estates*, encouraging yet more freight into the area
 - + *Housing estates*, once greenbelt land is opened up by the road
- * **MUCH, MUCH MORE TRAFFIC!**

**In 10 years time, a motorway will run through the valley
The bypass is just the beginning...**

**The environment we live here for, the beauty of our valley
DESTROYED AND POLLUTED FOREVER**

The road builders and property developers will have taken their money and left us with this

THEIR QUICK GAIN, OUR PERMANENT LOSS

JOIN other local people in opposing the bypass

DEMAND a weight limit on the A628 to remove heavy lorries

LOBBY Councillors and MPs to find solutions to the traffic problems other than road building

PRESS Councillors for an integrated, FREQUENT and AFFORDABLE public transport system, linking rail, bus, cycle and walking routes.

*If you'd rather do nothing, put this note away somewhere safe.
Get it out in 5 years time and wish you'd listened to us.*

**Sign the Petition online at www.saveswallowswood.org.uk
or call 0845 226 3392 for information**
